

Saravana Prabhu S

Junior Software Developer

Passionate software developer skilled in Java, MySQL, HTML, and CSS. Focused on building secure, scalable web applications with clean code and problem-solving mindset. Eager to contribute to impactful, real-world projects across diverse domains

EDUCATION

Ksg College Of Arts And Science — Bsc CS

JULY 2022 - MAY 2025

Bharathiar University in Coimbatore

GPA: 8.2

Government Higher Secondary School, Arasur

JUNE 2020 - MARCH 2022

With An Aggregate of 80%

PROJECTS

1. ELECTRICAL BILLING SYSTEM – Built Using JAVA And SQL

The system includes a splash screen, centralized launcher, and structured database. It manages payments, bills and forms with user-focused design object oriented structure, intuitive GUI, and strong backend integration.

2. MINI PROJECTS – Built Using JAVA SWING (Tic-Tac-Toe and Age Calculator)

3. ONLINE GRAPHICAL – Built Using PHP And SQL

A graphical authentication system verifies users through image-based passwords. Users must select and replicate a specific image sequence, enhancing security through both recognition and correct order of images

EXPERIENCE

Java Full Stack Developer – Trainee Sun Software Pvt. Limited

–Applied core Java and MySQL skills to build a real-world application during an internship. Strengthened the core and understanding of the Java Swing (JFrame) for GUI based real time application development.

–Gained practical experience in integrating front end and backend components in a full-stack environment.
